

## STEP A: COLOR PALETTE

```
final scheme = ColorScheme(  
  brightness: Brightness.light,  
  primary: const Color(0xFF000000),  
  onPrimary: const Color(0xFFFFFFFF),  
  secondary: const Color(0xFF717171),  
  onSecondary: const Color(0xFFFFFFFF),  
  surface: const Color(0xFFF5F5F5),  
  onSurface: const Color(0xFF000000),  
  error: const Color(0xFFB00020),  
  onError: const Color(0xFFFFFFFF),  
);
```

| Role      | Hex     | Used for:                                   |
|-----------|---------|---------------------------------------------|
| Primary   | #000000 | Headers, Menu Bar,<br>Backgrounds for Pages |
| Secondary | #717171 | Non Primary popups                          |
| Tertiary  | #000000 | Cards                                       |
| Neutral   | #F5F5F5 | Homescreen Background                       |

**CONTRAST:** BLACK BACKGROUND WITH WHITE TEXT FOR IT TO BE READABLE

**DARK MODE/LIGHTMODE:** No, my app is themed with dark colors so i am keeping it Dark mode instead of light mode.

## STEP B: The type scale, as a TextTheme

```
textTheme: const TextTheme(  
  heading: TextStyle(fontSize: 26, fontWeight: FontWeight.bold),  
  body: TextStyle(fontSize: 16),  
  caption: TextStyle(fontSize: 12),  
),
```

| Your Style | Flutter slot | size  | weight | Used for                          |
|------------|--------------|-------|--------|-----------------------------------|
| HEADING    | Heading slot | 28 sp | bold   | Screen title, page header         |
| BODY       | Body slot    | 16 sp | reg    | Normal texts, descriptions, lists |
| CAPTION    | Caption slot | 12 sp | reg    | Timestamps, hints, helper texts   |

## STEP C: SPACING RULE

```
class AppSpacing {  
  static const double tight = 8;  
  static const double standard = 16;  
  static const double screenPadding = 24;  
}
```

|                                       |             |
|---------------------------------------|-------------|
| Tight spacing (between related items) | <b>8px</b>  |
| Standard spacing (between sections)   | <b>16px</b> |
| Screen edge padding                   | <b>24px</b> |

## STEP D: CONTENT FILES

| COMPONENT        | FILE                               | PARAMETERS                                             | USED IN                   |
|------------------|------------------------------------|--------------------------------------------------------|---------------------------|
| GearSlot         | lib/widgets/gear_slot.dart         | String? gear,<br>VoidCallback onTap                    | BUILDS                    |
| GearPicker       | lib/widgets/gear_picker.dart       | List<String> gears,<br>ValueChanged<String> onSelected | BUILDS                    |
| NoteField        | lib/widgets/note_field.dart        | TextEditingController<br>controller                    | NOTES                     |
| MonsterCard      | lib/widgets/monster_card.dart      | Monster monster,<br>VoidCallback onTap                 | BESTIARY                  |
| MonsterInfo      | lib/widgets/monster_info.dart      | Monster monster                                        | BESTIARY                  |
| AppButton        | lib/widgets/app_button.dart        | String label,<br>VoidCallback? onPressed               | LOGIN/SIGNUP,BUILD ,NOTES |
| LoadingIndicator | lib/widgets/loading_indicator.dart | N/A                                                    | LOGIN/SIGNUP,BUILD ,NOTES |

## WHAT CHANGED AND WHY:

| Element    | Prelim Said               | Now says:                 | Why it changed:           |
|------------|---------------------------|---------------------------|---------------------------|
| Everything | I kept the previous entry | I kept the previous entry | I kept the previous entry |
