

BESTIARY MAIN SCREEN LIST DESCRIPTIONS

Vorkath – A reanimated dragon of Ungael, Vorkath is a monstrous remnant of a forgotten age, awakened to unleash death upon those who dare challenge him.

Zulrah – A mysterious serpent born from the swamps of Karamja, Zulrah is an ancient creature worshipped and feared by those who dwell near its domain.

Giant Mole – Beneath Falador lies a creature that has grown far beyond its natural kind. The Giant Mole burrows through the earth, disturbing the tunnels beneath the kingdom.

Kraken – Lurking beneath the waves of Kraken Cove, this enormous sea monster is a terrifying remnant of the deep, surrounded by its ever-present tentacles.

King Black Dragon – One of Gielinor's most infamous dragons, the King Black Dragon rules his volcanic lair with three heads and a breath capable of bringing even seasoned warriors to ruin.

Sarachnis – Deep within Forthos Dungeon dwells Sarachnis, a gigantic red spider whose nest has become a deadly hunting ground for adventurers.

Skotizo – A powerful demon hidden beneath the Catacombs of Kourend, Skotizo draws strength from the darkness around him and commands the ancient altars of his lair.

BESTIARY BOSS INFORMATIONS BELOW

Vorkath

Description

Vorkath is a powerful blue dragon boss found on the island of Ungael. After completing Dragon Slayer II, players can fight Vorkath repeatedly. He uses a mixture of melee, Magic, ranged, and powerful dragonfire attacks.

Main Attacks

- **Melee attack:** Uses his claws/wings when the player is nearby.
- **Magic attack:** Fires a blue projectile at the player.
- **Ranged attack:** Fires a projectile made from bones and flesh.
- **Acid Phase:** Covers the arena with acid pools and repeatedly fires dragonfire at the player's position.
- **Prayer-disabling dragonfire:** Can turn off the player's active prayers.
- **Venomous dragonfire:** Can inflict venom.
- **Zombified Spawn:** Summons a creature that must be killed with crumble undead

Important Mechanics

The fight follows an attack pattern involving six standard attacks followed by a special attack. His most dangerous mechanics are the acid pools, rapid-fire attack, and zombified spawn.

Strategy

Maintain appropriate dragonfire protection throughout the fight. Keep moving during the acid phase and avoid standing on acid pools. When the zombified spawn appears, kill it quickly before returning your attention to Vorkath.

Kill Guide

1. Enter Vorkath's arena.
 2. Make sure your quick prayers are on protect mage and piety or rigour if using range.
 3. Attack Vorkath while watching his attack cycle.
 4. Move continuously during the acid special attack.
 5. Kill the zombified spawn when it appears.
 6. Watch for the prayer-disabling dragonfire.
 7. Continue attacking until Vorkath is defeated.
-

2. Zulrah

Description

Zulrah is a large serpent boss that changes between different forms during the fight. Each form has different attacks and weaknesses, requiring the player to change combat styles and protection prayers.

Main Attacks

- Ranged attack
- Magic attack
- Melee tail attack
- Venom
- Snakelings
- Venom clouds

Forms

Green Form

- Primarily uses Ranged.
- Weak to Magic.

Blue Form

- Uses Magic and Ranged.
- Generally fought with Ranged.
- Magic attacks are common, making Protect from Magic useful.

Red Form

- Uses a powerful melee-style tail attack.
- The attack can be avoided by moving away.

Important Mechanics

Zulrah follows one of several predetermined rotations. The boss repeatedly dives into the swamp and reappears in another position and form. It can also summon snakelings and create venom clouds.

Strategy

Learn Zulrah's rotations and recognize each form by its color. Switch between Magic and Ranged equipment depending on the form. Avoid venom clouds and keep track of protection prayers.

Kill Guide

1. Enter Zulrah's shrine.
 2. Identify Zulrah's current form.
 3. Use the appropriate combat style.
 4. Switch protection prayers according to its attacks.
 5. Move around the island as Zulrah changes positions.
 6. Avoid venom clouds.
 7. Deal with snakelings when necessary.
 8. Continue following the rotation until Zulrah is defeated.
-

3. Giant Mole

Description

The Giant Mole is a large mole boss located beneath Falador. Compared with many other bosses, its mechanics are relatively simple. Its main mechanic is burrowing around the cave when its health becomes low.

Main Attacks

- **Melee attack:** Swipes the player with its claws.
- **Burrow:** Moves underground and reappears somewhere else in the lair.

Important Mechanics

When the Giant Mole reaches between 5% and 50% health, player attacks have a chance to cause it to burrow to another location. It can also extinguish certain open light sources when it burrows.

Strategy

Ranged attacks are useful because the Giant Mole has relatively low Ranged defence and cannot path around obstacles. Players using melee can use Protect from Melee.

Kill Guide

1. Enter the Mole Lair.
 2. Locate the Giant Mole.
 3. Attack it using your preferred combat style.
 4. Use Protect from Melee if fighting it at close range.
 5. When it burrows, locate it again.
 6. Continue attacking until it is defeated.
-

4. Kraken

Description

Kraken is a Slayer boss found inside Kraken Cove. The fight is relatively straightforward because it has few complicated mechanics. The boss is normally fought using Magic.

Main Attacks

- **Kraken attack:** Typeless magical ranged attack.
- **Enormous Tentacles:** Four tentacles surrounding the boss also attack the player.

Important Mechanics

Kraken cannot be attacked with normal melee attacks because the boss cannot be reached by melee weapons. Its attacks are typeless, meaning normal protection prayers do not block their damage.

Strategy

Use Magic as the main combat style. A fishing explosive can be used on the large whirlpool to immediately start the encounter. Focus your damage on Kraken instead of wasting time killing every tentacle.

Kill Guide

1. Enter Kraken Cove while on a Kraken Slayer task.
2. Use a fishing explosive on the large whirlpool.
3. Attack Kraken using Magic.
4. Continue attacking the main boss.
5. Tank the relatively low-damage tentacle attacks.
6. Keep your health above a safe level.
7. Defeat Kraken and collect the drops.

5. King Black Dragon

Description

The King Black Dragon, commonly called KBD, is a powerful three-headed black dragon. Its lair is accessed through the Wilderness, making the journey to the boss an important part of the encounter.

Main Attacks

- **Melee attack**
- **Normal dragonfire**
- **Shock dragonfire**
- **Ice dragonfire**
- **Poison dragonfire**

Special Dragonfire Effects

Shock Dragonfire

- Can reduce the player's stats.

Ice Dragonfire

- Can freeze the player.

Poison Dragonfire

- Can inflict poison.

Important Mechanics

KBD's dragonfire is stronger than that of normal adult dragons. Its special dragonfire attacks can apply additional effects even when protection is being used.

Strategy

Use strong dragonfire protection and appropriate antifire equipment. Pay attention to the special dragonfire effects, particularly freezing and poison. Be careful while travelling through the Wilderness to reach the lair.

Kill Guide

1. Prepare dragonfire protection.
 2. Travel through the Wilderness to the KBD entrance.
 3. Enter the boss lair.
 4. Maintain dragonfire protection.
 5. Attack KBD while watching for its special dragonfire.
 6. Deal with poison or freezing effects when necessary.
 7. Continue attacking until KBD is defeated.
-

6. Sarachnis

Description

Sarachnis is a giant spider boss found inside Forthos Dungeon. She uses both melee and Ranged attacks and can summon smaller creatures during the fight.

Main Attacks

- **Melee attack**
- **Ranged attack**
- **Web attack**
- **Healing attack**
- **Spawn summons**

Important Mechanics

Sarachnis can heal herself when her attacks successfully damage the player. She can also fire a sticky web that binds the player. At certain health percentages, she summons smaller creatures to assist her.

Strategy

Sarachnis is weak to Crush attacks and has relatively high Magic and Ranged defence. A fast Crush weapon is therefore useful. Switch protection prayers depending on whether Sarachnis is attacking with melee or Ranged.

Kill Guide

1. Enter Sarachnis's arena.
2. Equip a Crush-focused melee weapon.

3. Attack Sarachnis.
 4. Use Protect from Melee when she is attacking from close range.
 5. Use Protect from Missiles when she attacks from a distance.
 6. Watch for the web attack.
 7. Deal with her summoned creatures when necessary.
 8. Continue attacking until Sarachnis is defeated.
-

7. Skotizo

Description

Skotizo is a powerful demonic boss found beneath the Catacombs of Kourend. Players need a Dark Totem to enter his lair. His fight focuses heavily on managing the Awakened Altars around the room.

Main Attacks

- **Melee attack**
- **Magic attack**
- **Awakened Altars**
- **Summoned creatures**

Important Mechanics

Skotizo can activate Awakened Altars positioned around the room. Active altars increase his defensive capabilities, making him harder to damage. Players need to deactivate the altars during the fight.

Strategy

Demonbane weapons are particularly useful against Skotizo. Pay attention to the Awakened Altars and deactivate them when they become active. Use the appropriate protection prayer against his attacks and keep moving when necessary.

Kill Guide

1. Obtain a Dark Totem.
2. Enter the Catacombs of Kourend.
3. Use the Dark Totem on the central altar.
4. Enter Skotizo's lair.
5. Attack Skotizo.

6. Deactivate Awakened Altars when they become active.
7. Deal with summoned creatures when necessary.
8. Continue attacking until Skotizo is defeated.
